**DECLARATION OF DIANE BRANHAM IN SUPPORT OF A
PETITION TO REVIVE APPLICATION PURSUANT TO 37 C.F.R. § 1.137(b)**

I, Diane Branham, declare and state as follows:

1. I am currently employed as a Patent Paralegal for Baxter Healthcare Corporation, and was so employed at all times described in this declaration.
2. This Declaration is provided in support of a Petition to revive the above-referenced patent application (hereinafter "the Application") pursuant to 37 C.F.R. 1.137(b).
3. On September 15, 2000, the Application was filed as the US national stage application of International Application No. PCT/AU99/00165.
4. A NOTIFICATION OF MISSING REQUIREMENTS UNDER 35 U.S.C. 371 IN THE UNITED STATES DESIGNATED/ELECTED OFFICE was mailed on October 2, 2000. When I received the notification on October 9, 2000, I stamped it with a docket stamp and recorded a due date of April 2, 2001 on the notification (see Exhibit A). I then inadvertently set aside the notification without docketing it into the electronic docketing system and without review by the patent agent prosecuting the Application. Therefore, the supervising patent agent was not aware that I had received the notification.
5. On March 19, 2001, the notification resurfaced in my filing. When I reviewed the April due date, I believed that I had calculated it incorrectly and that the final due date was March 2, 2001. At that time I entered it into the electronic docketing system with a March 2, 2001 final due date (see Exhibit B). Since the docketed final due date had passed, the notification did not appear on any later electronic docket reports.
6. On December 19, 2001, a NOTICE OF ABANDONMENT UNDER 37 CFR 1.53 (F) OR (G) was mailed by the PTO. I received the notice on January 3, 2002. I set the notice aside with the intent of preparing the Petition to revive for the prosecuting patent agent to review. I mistakenly misplaced the notice in my office without preparing the Petition. Therefore, the prosecuting patent agent was not aware of receipt of the notice or abandonment of the Application.

7. Baxter Healthcare Corporation has a regular and established docketing department and computerized docket system for recording and tracking due dates relating to issued patents and pending applications. Since there is no fixed date by which a petition to revive an abandoned patent application must be filed, however, I did not docket a due date concerning the Application.

8. In April 2003, Baxter entered an agreement to donate several patent applications including the Application to the Mayo Foundation. At that time, I reviewed our file, discovered that the Application had become abandoned and had not been revived, and again intended to prepare the Petition to revive. I informed the Mayo Foundation that I would revive the Application. However, I did not docket a due date for reviving the Application and inadvertently put the Application back into storage.

9. In June 2004, I received an inquiry from the Australian associate handling a related patent application regarding the status of the U.S. prosecution. When I pulled the Application from storage, I realized that I had failed to prepare the Petition to revive. I then informed the prosecuting patent agent of my mistakes. On June 18, 2004, the file was transferred to the Senniger firm for preparation of the Petition to revive. I have cooperated with that firm regarding preparation of the Petition.

10. It is my belief that at all times the Application was handled by Baxter Healthcare Corporation and the Senniger firm, Baxter Healthcare Corporation did not intend for the Application to be abandoned.

11. The entire delay in filing the required reply from the due date for the reply until the filing of the Petition was unintentional.

12. I further declare that all statements made herein of my own knowledge are true and that all statements made on information and believe are believed to be true; and further, that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. 1001, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Dated: July 23, 2004
